## Role and Responsibilities of Anti Ragging Committee:

As per the guidelines of UGC, AICTE and Anna University, an Anti-Ragging Committee has been constituted to handle issues related to ragging.

- Posters explaining anti-ragging policy of NIET are displayed around the campus, clearly stating the activities which are considered as ragging and punishments prescribed by the law for such activities. In addition, the anti-ragging policies and related details are also made available in the College Website, Student Hand Book and College Policy Book
- Affidavits, as per the direction from the Government and Anti-ragging undertaking are collected from all the students and their parents
- At the commencement of the academic year, through formal circular, students are instructed not to indulge in ragging and are explained about the anti-ragging policies and procedures
- Since the institution has implemented very strict policies and procedures to prevent ragging, so far, no complaints about ragging has been received either in the campus or in hostels
- CCTV cameras are also installed at various locations in the college as per the Government regulations as a deterrent for ragging and to monitor the activities

## VISION

Our vision is to mould the youngsters to acquire sound knowledge in technical and scientific fields to face the future challenges by continuous upgradation of all resources and processes for the benefit of humanity as envisaged by our great leader Pandit Jawaharlal Nehru.

## MISSION

- To build a strong centre of learning and research in engineering and technology.
- To facilitate the youth to learn and imbibe discipline, culture and spirituality.
- To produce quality engineers, dedicated scientists and leaders.
- To encourage entrepreneurship.
- To face the challenging needs of the global industries.

## PROGRAM OUTCOMES

**PO1:** Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

**PO2:** Problem analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

**PO3:** Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

**PO4:** Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
