Strategic Plan and Deployment

Academic Year 2020 - 2021

The institution has a strategic plan in tune with the vision and mission of the college. During the COVID-19 period, the strategic plan is developed on considering prevailing societal conditions and technological supports and contribution of the resource persons from academics and industry sectors. The online free webinars are planned for the benefit of students and academicians, researchers and industry persons. Each department has schedule for webinar series under various topics in thrust areas. The college conducted many webinars under Industry-Institution collaboration that is perceived from the strategic plan of the institution for this pandemic year.

MISSION OF ONLINE WEBINAR LEARNING

The principal mission of online learning is to enhance student access to the online academic programs. Of equal importance,

The online webinar sessions are essentially planned to support the students to acquire the technical knowledge skills on various domains in thrust areas. The online learning strategies imparts the seamless continuation of their academics and professional goals. By imparting training to the faculty members on teaching methodologies for online sessions, our faculty members simultaneously acquire new instructional skill sets which is important to their academic growth and professional development. The college is committed to provide the support and resources to students and faculty as they need to succeed as participants in online teaching-learning process.

THE IMPORTANCE OF ONLINE WEBINAR LEARNING

Online learning greatly helps the students to acquire the knowledge according to their requirements that comes outside of the traditional classroom scenario. The online webinars are particularly important to students who are willing to gather many ideas for developing projects thereby developing the technical skills and online learning strategies as they need to pursue their future educational and professional goals.

Advanced programs designed to meet the complementary needs of technical knowledge for the working professionals. These kind of online programs strongly support the college mission of serving regional and statewide economic and workforce development as social commitment which is required for less privileged learning community.
